Gary,

I hope you will find the edits satisfactory and consistent with today's call. I would like to extend my deepest appreciation to you, Hillary and Hussain for accommodating EPA on such short notice and for allowing up to go over the allotted meeting time. I look forward to getting comments from you by COB tomorrow, or Hussain on Friday. Let me know if any issues arise so we might work through them tomorrow. Also attached is the last permit strategy provided to EPA, as requested.

Ashley
